

Please do not allow LPFM to take priority over current FM translator service. I currently listen to K-LOVE which is a nation wide network of FM translator stations. I could lose the signal *I* choose to listen to and support. K-Love provides me and my family and my community positive and encouraging music, something that we all need. If K-Love were displaced by an LPFM many people would not have access to this positive and encouraging message and their lives could be less fulfilling. The service provided by K-Love is in public interest, I believe, because it makes a difference in the lives of people by sharing about Christ. I start off each morning commute by listening to K-Love and it helps me be in a calm state of mind which is important when having to fight traffic. K-Love provides hope for many people and has been instrumental in about 8000 people last year coming to know Christ. Please allow K-Love to keep using the FM translators.
